PROFESSIONAL SUMMARY

Highly motivated Web Developer with a passion for creating engaging and interactive web experiences. Seeking to leverage my skills in communication, collaboration, and problem-solving from 8 years of public school education, to Web Development.

RELEVANT SKILLS

Front End Development

- Proficient in HTML5, CSS3, and JavaScript/jQuery, delivering clean, semantic code and building engaging user interfaces.
- Skilled in utilizing front-end frameworks like React or Handlebars to create dynamic and responsive web applications.
- Experience developing and implementing impactful and intentional UI/UX for client, driving acquisition and retention.

Back End Development

- Proficient in server-side languages such as Node.js, implementing robust and scalable backend solutions.
- Experience with frameworks like Express.js, facilitating efficient development and RESTful API integration.
- Familiarity with database management systems like MongoDB and MySQL, ensuring effective data storage and retrieval for web applications.

Team Management

- Enhanced percussion program by implementing recruitment strategies, improving student retention, and establishing effective communication channels with vertical teams, resulting in increased program growth and community engagement.
- Provided individualized instruction, ensemble coaching, and workshops to percussionists, employing strong communication, feedback, and motivation techniques that resulted in notable skill development and growth.
